# ArriveCAN – The Mobile App for Incoming Travellers to Canada

In an effort to contain COVID-19 in Canada, **anyone entering the country** – no matter their citizenship – **is required** to provide their contact information.

MAKE THIS PROCESS QUICKER.

Download the **ArriveCAN mobile app**, available on the Apple App and Google Play Stores, prior to your arrival to reduce wait times and limit points of contact.

Download on the App Store   GET IT ON Google Play

Don't install it from any other source.

Data obtained from the mobile application will be used by the Public Health Agency of Canada to administer and enforce legislation and keep Canadians safe and healthy.

Inputting your information via the mobile app will generate a summary of your traveller information, which will be used by Border Services Officers and Quarantine Officers at port of entry to support health screening protocols.
